## 1. Introduction

The **Reviewer** role evaluates research proposals and reports. Reviewers accept or reject assigned proposals, grade progress reports, and grade final reports using structured rating criteria.

| Capability          | Description                                                                          |
|---------------------|--------------------------------------------------------------------------------------|
| Proposal acceptance | Accept or reject a proposal assigned to you.                                         |
| Progress grading    | Grade progress reports on achievements, publications, students, and budget.          |
| Final grading       | Grade final reports on objectives, publications/IP, student involvement, and impact. |
| View grades         | View your submitted grades for completed projects.                                   |

## 2. Logging In

- 1 Open the RTS application in your web browser.
- 2 Enter your **Email Address** and **Password**.
- 3 Click the **Login** button.
- 4 You will be redirected to the **Reviewer Dashboard**.

### 3. The Reviewer Dashboard

Dr. Reviewer

The Reviewer dashboard shows your assigned projects, pending gradings, and performance rating.

The dashboard provides:

- **Stat cards** — Total Assigned, Pending Proposals, Pending Gradings, and Graded.
- **My Reviews** — the list of projects assigned to you with their status.
- **My Performance Rating** — the average rating given to you by administrators, per research call.
- **Announcements** — the latest reviewer-specific announcements.

## 4. Assigned Projects

The screenshot displays the 'All Projects' interface. On the left is a dark sidebar with the Qatar University logo and a menu where 'Projects' is highlighted. The top navigation bar shows 'Available Projects - RTS' and a search bar. The main area is titled 'All Projects' with a subtitle 'Browse projects — register unregistered ones or view your registered projects.' Below this are filters for Cycle, Research Call, Status, and a search field. A table lists two projects:

| PROJECT ID                    | TITLE                                            | GRANT | CATEGORY | BUDGET (QAR)          | STATUS   | NEXT STEP                 | ACTION  |
|-------------------------------|--------------------------------------------------|-------|----------|-----------------------|----------|---------------------------|---------|
| <a href="#">IRCC-2024-002</a> | AI-Driven Predictive Maintenance for Smart Grids | IRCC  | Regular  | 380,000 QAR Requested | Assigned | Accept/Reject by Reviewer | Actions |
| <a href="#">IRCC-2024-001</a> | Advanced Nanomaterials for Water Purification    | IRCC  | Regular  | 450,000 QAR Requested | Graded   | Completed                 | Actions |

At the bottom, it says '© 2026 Qatar University. All rights reserved.' and 'Powered by RTS v2.0.0'. The sidebar also shows a user profile for 'Dr. Reviewer'.

The assigned projects list shows the projects you are responsible for reviewing.

- 1 Navigate to **Projects** in the sidebar.
- 2 Browse the list of projects assigned to you.
- 3 Open a project to review its details.

Dr. Reviewer  
Reviewer

Review the project's commitments and outcomes before grading.

Review the project's **Commitments** and **Outcomes** (articles, students, IP) to inform your grading decisions. Reviewers see the summary commitments; the detailed outcome lists are available to the LPI and Admin.

## 6. Grading a Project

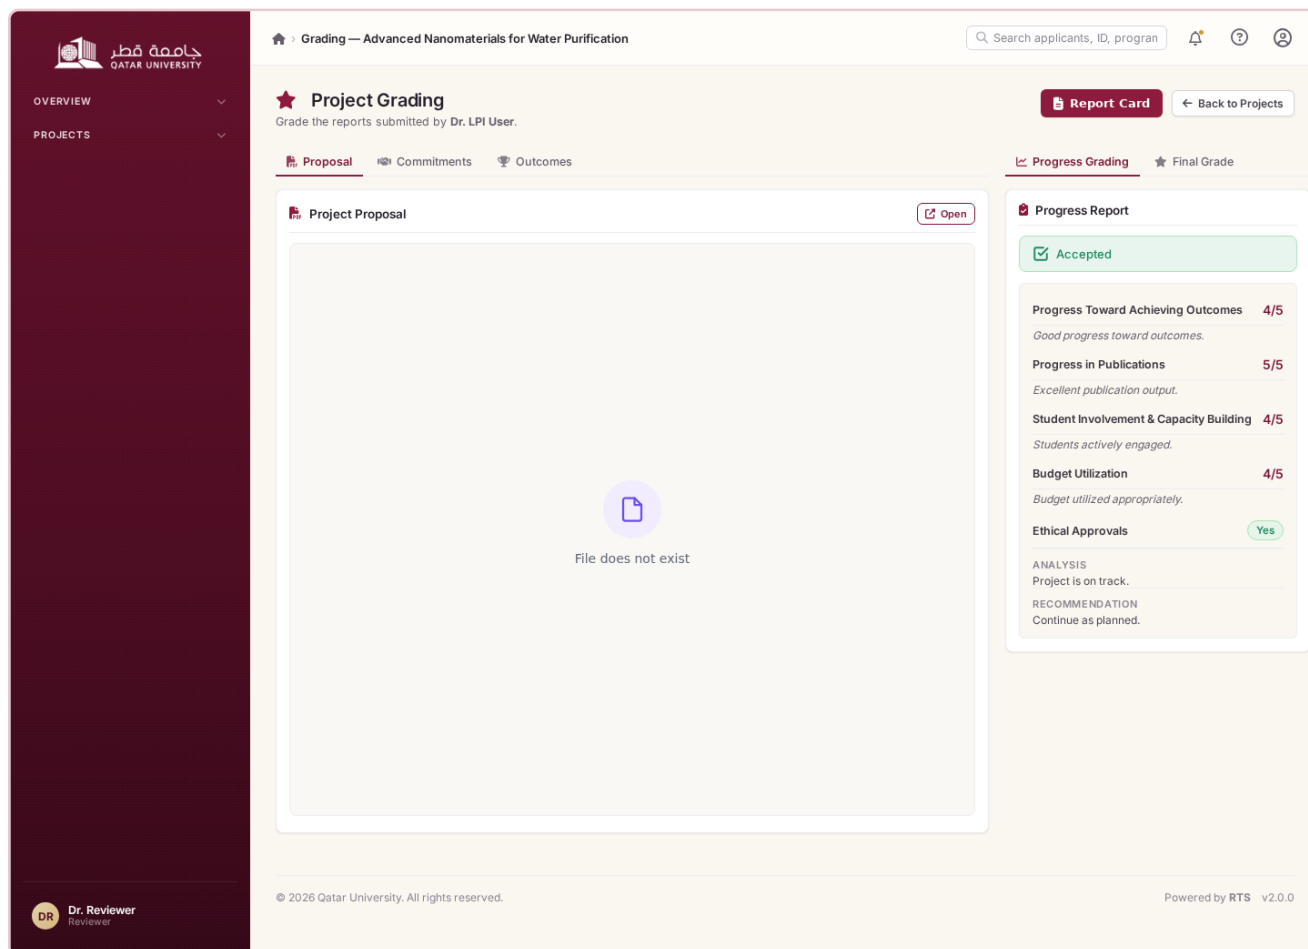

When a project reaches the grading stage, use the **Grade Project** action.

1 Open the project and click **Grade Project** (or **Open Grading**).

2 Rate each criterion on a scale from **1 to 5** and add comments.

3 Submit your grade to finalize your review.

## Progress Report Grading

The grading page for a progress report, with rating criteria and comments.

Progress report grading includes ratings for:

- **Progress Toward Achieving Outcomes**
- **Progress in Publications**
- **Student Involvement & Capacity Building**
- **Budget Utilization**
- An overall recommendation (Accept / Reject).

Each rating uses a worded scale (e.g., Very Dissatisfied ... Very Satisfied) with a numeric value from 1-5.

## Final Report Grading

The final report grading uses four scored sections (each out of 5):

- **A** — Achievements against objectives
- **B** — Publications & IP
- **C** — Student & Young Researcher Involvement
- **D** — Project Impact

A total score is computed from these sections, and the reviewer provides an overall accept/reject decision.

## 7. Support
